3. Previous Date Data Import Module (XML, Excel, SQL)

A dedicated import module allows backfilling or importing historical records from legacy software, previous dates, or external spreadsheets:

- **XML Import (.xml):** Standard hierarchical format supporting <sales>, <products>, <contacts>, and <daybook> tags.
- **Excel / CSV Import (.xlsx, .csv):** Multi-column tabular format automatically reading columns: Bill No, Date, Customer, Vehicle No, Quantity, Rate, Total.
- **SQL Dump Import (.sql):** Standard SQL script with INSERT statements directly executed into Supabase PostgreSQL.
- **Date Override:** When importing, users can preserve the original transaction dates in the file or apply a target previous date.

4. Automated Daily Cron Backup to Email & Google Drive

To ensure zero data loss, the system includes an automated daily backup daemon with flexible configuration:

Target Recipient Email	**ajojohn.dev@gmail.com** (configurable dynamically in the UI)
Default Backup Schedule	**0 23 * * *** (Daily at 11:00 PM IST)
Backup File Format	**XML (.xml)** (Structured standard with metadata, sales, inventory, and daybook)
Google Drive Integration	Uploads or syncs XML backup directly to designated Google Drive folder / Webhook
Auto-Clear Previous Data	Optional safety feature to archive and clear transactions prior to a threshold date
Manual One-Click Trigger	Instant 'Run Backup Now' button in the dashboard to generate and send backups immediately

Linux / Server Crontab Installation:

To enable daily cron execution on Hostinger, VPS, or local Linux servers, add this entry to crontab (crontab -e):

```
0 23 * * * cd /var/www/html/billing-app/backend && ./venv/bin/python cron_backup.py >> /var/log/jr_backup.log 2>&1
```

5. XML Backup & Import Specification

The standard XML structure for daily backups and historical imports follows this schema:

```
<jr_marbles_backup version="1.0" export_date="2026-10-15">
  <metadata>
    <company>JR MARBLES & GRANITES</company>
    <gstin>32FGZPR5431L1ZL</gstin>
    <bank_account>7944010222 (INDIAN BANK)</bank_account>
  </metadata>
  <sales>
    <sale bill_no="JR26-27 014" date="2026-06-30" vehicle_no="KL 16 G 2675" customer="Binu" total="2655.00" status="Paid">
      <item product="Regular Granite slab" hsn="6802" qty="45" rate="50" tax_percent="18" total="2655.00"/>
```

```
    </sale>
  </sales>
</jr_marbles_backup>
```

6. GST Tax Invoice Compliance (Kerala State Code 32)

Every printed invoice follows Kerala state GST compliance with dual CGST 9% and SGST 9% taxes for intra-state supply, complete with reverse charge declarations, vehicle transport numbers, and Indian Bank payment details.
